Section I. Study of scattered particles (charge transfer, backscattering)

Charge transfer dynamics of low energy collisions of Li^+ with alkali-covered Cu(001)
E.R. Behringer, D.R. Andersson, D.M. Goodstein, B. Kasemo, B.H. Cooper and J.B. Marston 3
Intra-atomic correlation effects in charge transfer
P. Nordlander, H. Shao and D.C. Langreth 11
Excitation and loss processes of ions at surfaces
W. Heiland and A. Närmann 20
The influence of work function changes on the charge exchange in low-energy ion scattering
M. Beckschulte and E. Taglauer 29
Evidence for a kinematic threshold in the formation of He^+ ions in grazing scattering from an Al(111) surface
H. Winter 38
A theory for Auger neutralization of He^+ ions scattered off simple metal surfaces
N. Lorente and R. Monreal 44
Energy shift and broadening of H levels in front of a metal surface
A.G. Borisov, D. Teillet-Billy and J.P. Gauyacq 49
The scattering of low energy hydrogen ions from surfaces
R.J. MacDonald, D.J. O'Connor, B.V. King, Y. Shen and G. Xu 56
Charge fractions in a hydrogen beam reflected from targets with different electron density
V.A. Kurnaev, N.N. Koborov, G.I. Zhabrev and O.V. Zabeida 63
Energy dependence of particle reflection coefficient of ions from solid surfaces in the low energy region below 200 eV
K. Kondoh, M. Suwa and K. Morita 68
Energy loss spectra of H^+ and H^0 scattered off metal surfaces
A. Närmann, K. Schmidt, C. Höfner, W. Heiland and A. Arnau 72
Charge exchange collision between ion and adsorbate-covered surfaces
M. Kato, D.J. O'Connor and R.J. MacDonald 77
A computer simulation study on hyperthermal energy rare gas ion scattering from solid surfaces
M. Nakamura, M. Tsukada and M. Aono 81
Inelastic losses of low-energy ions transmitted through thin films
S. Mikheev, Yu. Ryzhov, I. Shkarban and V. Yurasova 86

Section II. Collisions involving multiply charged ions and heavy ions

Interaction of Ne^{q+} ($q = 8, 9, 10$) with a Pt(110) surface
R. Köhrbrück, S. Hustedt, S. Schippers, W. Heiland, J. Bleck-Neuhaus, J. Kemmler, D. Lecler and N. Stolterfoht 93

0168-583X/93/$06.00 © 1993 – Elsevier Science Publishers B.V. All rights reserved

Slow electron emission from slow hollow atoms produced near a clean metal surface
F. Aumayr, H. Kurz, K. Töglhofer and HP. Winter 99

Deexcitation of hollow atoms: autoionization of multiply excited N, O and Ne atoms at a Pt(110) surface
S. Schippers, S. Hustedt, W. Heiland, R. Köhrbrück, J. Bleck-Neuhaus, J. Kemmler, D. Lecler and N. Stolterfoht 106

The line shape in projectile Auger electron spectra from highly charged ion surface interactions
J. Bleck-Neuhaus, R.A.N. Page and A. Saal 113

C_{60} interactions with surfaces, gaseous species and photons: an overview
D.M. Gruen 118

Section III. Excitation processes

Sodium deexcitation spectra at ion-bombarded sodium halide surfaces
J. Fine, M. Szymonski, J. Kolodziej, M. Yoshitake and K. Franzreb 129

Excited atom emission under ion bombardment of metal surfaces covered by alkaline films
S.F. Belykh, Ju.N. Lysenko, I.V. Redina, U.Kh. Rasulev and V.Kh. Ferleger 134

Formation of localized states and electronic excitation in solids during low-energy particle bombardment
Z. Šroubek 140

Optical emissions of sputtered MgO molecules formed from oxygenated magnesium surfaces
P.G. Fournier, J. Fournier, B. Bellaoui, O. Benoist d'Azy and G. Taieb 144

The model of secondary atom excited states formation
V.G. Drobnich and S.Yu. Medvedev 148

Auger decay of excited atoms near metal surfaces
R. Zimny 153

Ion-induced plasmon excitation on clean and oxidized silver surfaces
Y.A. Bandurin, A.I. Dashchenko, I.E. Mitropolsky and S.S. Pop 159

Capture of polarized electrons into Na I-3p during grazing scattering of fast Na^+-ions from a Fe(110)-surface
J. Leuker and H. Winter 163

Section IV. Sputtering and beam induced modifications of surfaces

Recoil implantation effects in ion impact desorption of monolayer adsorbates on solid surfaces
K. Morita 171

Ion scattering by polymer surfaces: elastic and inelastic effects
P. Bertrand and Y. De Puydt 181

Sputtering of solid nitrogen by keV helium ions
O. Ellegaard, J. Schou, H. Sørensen, R. Pedrys and B. Warczak 192

Sputtering and crater formation in oxidic materials due to ion induced sputtering dependent on energy
S. Priggemeyer and W. Heiland 198

Theoretical description of sputtering at grazing incidence
R. Wedell and J.-P. Kuska 204

Contour mapping as an interpretive and calculative tool in alloy sputtering measurements
J. du Plessis and E. Taglauer 212

Modifications of silicon surfaces by energetic alkali-metal ion irradiation
C. Benazeth, P. Cafarelli and N. Benazeth 217

Section V. Electron emission

Principles and mechanisms of ion induced electron emission
R.A. Baragiola 223
Electron emission in slow collisions of inert gas and reactive ions with W(110) partially covered by alkali atoms
H. Müller, R. Hausmann, H. Brenten and V. Kempter 239
Spin-polarized electron emission spectroscopy (SPEES) to study particle–surface interaction mechanisms
C. Rau, N.J. Zheng and M. Rösler 247
Ar L-shell and metal M-shell Auger electron emission for 14 keV Ar^+ ion impact on Ca, Sc, Ti, V, Cr, Fe, Co, Ni, and Cu
F. Xu, P. Riccardi, A. Oliva and A. Bonanno 251
Proportionality between the secondary electron yield and the electronic stopping power for proton impact on aluminium
J.C. Dehaes and A. Dubus 255
Ion-induced electron emission from a cold (40 K) nickel target
W. Soszka 260
Ion-induced kinetic electron emission of metals: comparative studies of excitation and scattering mechanisms
M. Rösler 263

Section VI. Secondary ion emission

Secondary ion emission from metal surfaces
I.F. Urazgil'din 271
Contribution of the LZS model to the positive ion emission out of metallic samples in the presence of chemically active elements
C. Coudray 278
Ionization in the sputtering process: the effect of the local structure in the tight binding approximation
J. Quazza and J.P. Jardin 285
Ionization probabilities of particles sputtered from high-T_c superconductors
A.B. Popov, S.B. Kablukov, B.N. Makarenko and A.P. Shergin 290
Angular resolved energy distribution of secondary ions emitted from a silicon target sputtered by rare gas ions under oblique incidence
C. Pellet, C. Schwebel and C. Resseguier 294
The influence of Cs, Rb, K, and Na implanted in silicon on the emission of silicon secondary ions
W. Frentrup, H. Kerkow and U. Müller-Jahreis 300
Influence of spatial disorder on secondary ion formation
S.A. Deutscher and J.-P. Kuska 305
On the secondary ionic emission of polyatomic ions from C_{60} samples
R.-J. Tarento, C. Dolin and P. Joyes 310
Secondary ion production by electron and ion bombardment of alkali halides
Z. Postawa, J. Kolodziej, P. Czuba, P. Piatkowski, M. Szymonski, E. Bielanska, J. Camra, T. Ciach, M. Faryna and A. Rakowska 314

Section VII. Desorption

Electronically induced sputtering of ground and excited state alkali atoms from alkali halide crystals
N. Seifert, H. Ye, D. Liu, R. Albridge, A. Barnes, N. Tolk, W. Husinsky and G. Betz 321

Laser induced desorption of ions from insulators near the ablation threshold
O. Kreitschitz, W. Husinsky, G. Betz and N.H. Tolk 327
Electron stimulated desorption of positive and negative ions from SiO_2/Si surfaces
M. Petravić, J.S. Williams and W.C. Wong 333
Ion-induced desorption in the near-threshold regime
Y. Yamamura, T. Takiguchi and H. Kimura 337
Ion photodesorption from hydrogenated silicon (111) surfaces
L. Hellner, L. Philippe, G. Dujardin, M.J. Ramage, M. Rose, P. Cirkel and P. Dumas 342
